

MM-200 V SET

Measuring Microscope

Precise, compact and easy-to-use measuring microscope for dimensioning and tolerancing.

Nikon's MM-200 V Set Measuring Microscope is compact and lightweight with an affordable price for all who require precision and accuracy for measuring a variety of metal, plastic, and electronic parts in all industries; especially automotive and electronics. Configured as a low-cost alternative to manual vision systems, this versatile measuring package includes a 1.3 megapixel color digital camera and advanced E-MAX data processing software.

A Low Cost Automated Vision System

Why settle for a manual system? The MM-200 is compact, completely integrated, and remarkably easy-to-use. It can be operated from a desktop or laptop PC running Windows XP or Vista (32-bit), with 2 GB RAM. With a price starting at \$17K, this measuring system is as affordable as it is powerful.

12x Zoom Lens System Provides Crystal-clear Metal, Plastic and Electronic Part Inspection

The MM-200's Navitar lens system includes LED BrightLight II illumination, which provides a 0.58x to 7.0x magnification. The reflected light illuminator is built-in and has a small but efficient LED lamp house that attaches directly to the lens assembly for on-axis reflected light illumination.

Luminera Infinity Digital Camera Offers Speed, Sensitivity and Excellent Color Reproduction

A great performer and a economical price, the Infinity 1-2c 1/2" CMOS Color Digital Camera from Luminera features 1600 x 1200 resolution and on-board processing.

E-MAX Software Enables Advanced Measurement and Image Processing Functions

Intuitive data processing software package, providing full edge detection measurements with sub-pixel processing. Supports a wide variety of cameras.

Specifications

MM-200

Optical Head	Navitar zoom mount arm OREDC50100 (for use with Nikon TM objectives) C-Mount Video Head
Objective Lenses (use EDC50100)	Standard: 3x (75.5mm), Optional: 1x (79mm), 5x (64mm), 10x (48mm)
Navitar Zoom	MM-200 Navitar zoom/head mount (see Navitar specifications)
XYZ Stroke	50mm x 50mm x 110mm
Traveling Accuracy	(2.5+L/50) μ m with linear error correction, (3+L/50) μ m (L= measurement length in mm)
Max Loading Weight	2kg for guaranteed accuracy – up to 5kg for operation
Digital Readout	SC2-E1 two axis: 0.01/0.1 (default) / 1/10 μ m
Illuminator	Standard: diascopic/episcopic white LED, Optional: ring light (white LED), fiber optic ring & gooseneck
Power Source	100-240V, 50-60Hz
Power Consumption	Max 1.8A
Dimensions	316 (W) x 455 (D) x 533 (H)
Weight	40kg

Navitar Zoom/Head Mount

Navitar	Dovetail fits MM-200 (MM400 mount is also available on special order)
Zoom Lens	12x Zoom with 1x mini adapter and C mount, built-in click stops on zoom, 0.58x-7x, NA 0.0197-0.1, W.D. 86mm
Field of View	With 1/2" camera 13.79-1.14mm
Resolution	9.26-1.67 μ m
Depth of Field	1.39-0.05mm
Epi-Illuminator	Built-in coaxial illuminator, LED lamp house, variable transformer

Luminera Digital Camera

Image Sensor	1/2" CMOS color 6.7 x 5.0mm array
Effective Pixels	1600 x 1200, 4.2 μ m square pixels
Frame Rate	20fps at 1600 x 1200 , 96fps at 640 x 480
Output	8 and 10-bit uncompressed USB 2.0 interface
Auto Exposure White Balance	Automatic or Manual
Gain	1 to 10x programmable
Lens Mount	C-Mount
Dimensions	3.85 (L) x 2.00 (W) x 2.75 (H) inches (weight: 300g)

E-MAX Measuring Software

Teaching Files	*.NMP file (file converter provided to convert older Ver 5.3 *.TCH files to new *.NMP file)
Improved Functions	Video, List, Result, Graphics Window, Tan-Tan-Rad, Tan-Tan-Tan, Chart Measurement and Image Save Tools
New Toolbars	Result, Cad Tool, Graphic and Edit toolbars added
New Camera	Luminera Infinity 1-2c CMOS digital camera now supported
Computer Requirement	Recommended PC – Core 2 Duo 1.8GHz, Win XP SP3, 2+ GB RAM, 160MB HDD, CD or DVD drive, 4 USB 2.0, (Minimum specification - P4 3GHz, Win XP SP2, 1 GB RAM, 40GB HDD, CD or DVD drive, 4 USB 2.0
